

Jang Forum symposium was arranged in collaboration with PMA (Pakistan Medical Association)

**OPL arranged symposium on important topic of “Medical considerations while prescribing IV solutions – Stakeholders perspective”. This symposium was arranged in collaboration with PMA (Pakistan Medical Association) and was participated by stakeholders of almost all medical specialties. They expressed their concerns about the quality of IV solutions available in Govt. institutions. They were of the opinion that quality of IV solutions matters most as it is going in to the veins and it may create life threatening situations.**
