

Otsuka Pakistan Ltd. proudly organized an accredited CME program (from American Society for Simulation in Healthcare) on "Mastering TPN for Better Clinical Outcome" under the umbrella of Otsuka Clinical Nutrition Excellence Forum, in collaboration with the Center of Innovation in Medical Education (CIME) at Aga Khan University Hospital.

During this highly informative session, expert speakers including Dr. Faisal Khan, Ms. Ramsha Siddiqui, Ms. Zunish Ali, and Ms. Amna Shah provided hands-on training and insights on understanding Total Parenteral Nutrition (TPN) — from patient identification and dosage calculation to administration. The active participation of Key Opinion Leaders from the medical community, such as Dr. Khursheed A Samo, Dr. Farjad Sultan and Dr. Niaz Hussain Soomro, highlighted the significance of this initiative in improving clinical outcomes for patients.

A heartfelt thank you to Ms. Salma and her department for facilitating this event, along with CIME-AKUH ,for their dedication and efforts in making this initiative a real success.

At the end of the session, shields and certificates were presented to the participants, acknowledging their commitment to continuous learning and excellence in clinical nutrition.
